Purwokerto, Jawa Tengah

An Information Systems graduate and Web Developer specializing in building interactive and responsive applications with hands-on experience in JavaScript frameworks such as React and Next.js, as well as PHP with Laravel. Proficient in Git for version control and experienced in project management using Trello to support effective collaboration and structured workflows. Adaptable, detail-oriented, and committed to continuous learning, with a strong interest in exploring new tools, frameworks, and best practices in modern web development. Eager to contribute to impactful digital solutions and drive innovation in the web development field.

Experience

CV. Prabubima Tech - **Purwokerto**　　　　　　　　　　　　　　　　　　　　Feb 2025 - May 2025

Internship

Prabubima Tech is a startup company specializing in information systems and software development, providing comprehensive support and solutions for schools and Islamic boarding schools. Focused on empowering educational institutions through effective technology implementation and tailored system development.

- Learned and practiced Laravel framework during the internship.
- Developed a personal project using Laravel framework.
- Created an article publishing platform with features similar to Medium.
- Implemented WYSIWYG editor for article content creation.
- Designed responsive UI using Tailwind CSS and Alpine.js.
- Integrated MySQL database for data storage and management.

Revitalize Community - **Remote**　　　　　　　　　　　　　　　　　　　　　Oct 2024 - Jan 2025

Social Media Manager

A SA:MP server project focused on strengthening community visibility through creative social media campaigns, leveraging TikTok (@revitalizeid) as a promotional platform to boost engagement and brand awareness.

- Designed and executed promotional content strategies for TikTok (@revitalizeid).
- Created engaging video campaigns to increase brand awareness and attract community members.
- Monitored and analyzed content performance metrics to improve reach and engagement.
- Collaborated with team members to ensure alignment between social media campaigns and community goals.

Dicoding Indonesia - **Apprenticeship**　　　　　　　　　　　　　　　　　　Feb 2024 - Jun 2024

React & Backend Developer Cohort

Certified Independent Study (Studi Independen Bersertifikat or SIB) Dicoding Cycle 6 is part of the Kampus Merdeka program, which aims to produce high-standard talents aligned with industry standards. The learning process is conducted through online learning, where participants are required to implement the acquired materials directly through projects and tasks to complete each module.

- Completed all courses under the selected learning path (React & Back End Development), each awarded with individual certificates.
- Collaborated in a final group project (3 members) called Veggievine, an online shop platform for local farmers in JABODETABEK.
- Handled the Front-End development using Next.js and Redux to build a modern and responsive user interface.
- Implemented key features such as product catalog, shopping cart, searching and filtering, and notification system.
- Integrated Midtrans for secure online payment transactions.
- Deployed the application on Vercel for authentication, real-time database, and hosting.
- Coordinated with the backend developer who built the API using Laravel.

Infinite Learning - **Apprenticeship**　　　　　　　　　　　　　　　　　　　Aug 2023 - Dec 2023

Web Developer Mentee

Infinite Learning Indonesia is a division of PT Kinema Systrans Multimedia, a subsidiary of Infinite Studios, dedicated to providing vocational training programsaligned with the industry needs of Infinite Studios and the expanding Nongsa Digital Park ecosystem. Focused on cultivating skilled talent to meet the growing demand for creative and digital professionals.

- Participated in an intensive online mentorship program with live classes via Zoom, guided directly by industry mentors.
- Worked on three levels of projects (Micro, Macro, and Massive) to apply acquired skills in real-world scenarios.
- Collaborated with both Web and Mobile teams in the Massive Project phase to build Recipein, a recipe-sharing platform.
- Served as Front-End Developer, responsible for designing and implementing the user interface and integrating APIs.
- Developed features enabling users to share, search, and discover healthy recipes with detailed nutritional information.
- Utilized React, Tailwind CSS, and Axios for the front-end, integrated with Express.js and MySQL for backend and database management.

Revitalize Community - Remote   Sep 2021 - May 2023
Supervisor & HRD

A SA:MP server project focused on building a secure, engaging gaming community through effective recruitment, training, and management strategies, prioritizing player satisfaction and staff development.

- Supervised team members' training routines and activities, monitoring individual progress and ensuring alignment with established goals.
- Fostered effective communication channels among team members to optimize collaboration and maintain high performance standards.
- Oversaw recruitment and onboarding processes to ensure the selection of competent staff.
- Implemented staff management strategies, including performance evaluations and development plans, to improve efficiency and staff satisfaction.
- Facilitated continuous professional development through structured training and feedback, ensuring adherence to community standards and project policies.

Education Level

Universitas Amikom Purwokerto - Purwokerto, Indonesia   Sep 2021 - Sep 2025
